

MyClassBoard (MCB) vs XULO: school ERP comparison

Prepared 7 October 2026, revised the same day after the gaps below were built. Sources: the MCB screen catalogue and price list exported from the Yajur MCB login on 7 Oct 2026 and the myclassboard.com product pages; the XULO catalogue (docs/edu_features.csv, 408 features), the feature matrix (docs/FEATURE_MATRIX.csv, 442 rows, last verified 20 Aug 2026) and the source tree (454 screen files).

1. Verdict

Which is best depends on who is asking. For a school signing a contract today, MCB is the safer choice: it has been in daily use at many schools for years, its finance module ships about 150 fixed reports that auditors and accountants already know, and it has a support organisation, hardware partners (biometric, GPS) and a published message-credit price list. For the owner of XULO, XULO is the better product on paper: it covers more of a school's work (hostel, payroll, books of account, clinic, counselling, discipline, stores, canteen, LMS, class stories, statutory returns, a seller console for many schools), it is phone-first, white-labelled and multi-tenant, and it is not yet proven in a real school.

Screen-by-screen score. Of the 402 MCB screens in the exported catalogue, XULO has an equivalent for 368, partly covers 12 and lacks 22. Most gaps are fixed reports that XULO leaves to its Custom Report Builder, plus a few MCB-specific tools (staff task manager, library Lexile assessment, student contracts, MPIN, hardware scan).

What XULO has that the MCB catalogue does not. Hostel (rooms, outpasses, mess, night study, visitors, laundry), monthly payroll with statutory and taxation filing, double-entry books with daybook and cashbook, clinic and health records, counsellor and discipline desks, stores and canteen sales, LMS with modules and quizzes, Class Status photo and video stories with a family gallery, UDISE+, APAAR, DigiLocker and RTE handling, a Board or Trustee money view, twenty named roles with their own home screens, offline attendance capture, a Help Centre with Quick Assist screen sharing, and a seller console with plans, entitlements and message credits. MCB sells some of these (HR Plus, Hostel, Inventory, LMS) as separate priced modules that are not in this export.

Built on 7 October 2026 in answer to the first version of this comparison: the seven fixed finance reports (Fixed reports under Banking & Reports), staff tasks with a per-person report and reporting managers (Staff tasks under People; My tasks for teachers), the document and note behind a concession, compensatory off, permission hours and work-from-home on the leave and attendance screens, and reading levels in the library. All of it is type-checked and covered by Worker tests; it has not yet been used in a browser or by a school.

What must happen before XULO beats MCB in practice. (1) Run it at one or two real schools for a term. (2) Publish a price list the way MCB does. Until then, recommend MCB to a school that needs to go live next month, and XULO to a school that wants one system for everything and will accept a pilot.

2. What the buyer gets that MCB does not give

The buyer is the correspondent or principal who signs the cheque. They buy four things: more fee money collected, fewer staff hours, fewer angry parents, and no trouble with the board or the government. Each line below is one of those, what in XULO delivers it, and what it still needs before it can be promised.

What the buyer gets	How XULO delivers it	MCB	Still needs
1. More fee money, sooner	Reminders on a schedule by WhatsApp and SMS, the aging list with the parent's phone on every row, outstanding as at any month, post-dated cheques tracked to clearance, online payment with the receipt sent back	Has the reports; does not chase	WhatsApp Business account; one term measured at a pilot school
2. One fewer clerk	Payroll, books of account, GST receipts, tax filing, Tally export and the fixed reports in the core product; nothing re-typed into a second system	HR Plus and accounting are separate quoted modules	An accountant's full month at a real school
3. No surprise at inspection	UDISE+, APAAR, RTE, board LOC, staff service book and training hours kept as the year goes, with a check that names what is missing before the deadline	APAAR cards; the rest is the office's job	Readiness checker screen; one live UDISE+ submission
4. Fewer calls to the principal	Parents get the answer before they ask: attendance the same morning, homework in the diary, receipts at once, leave decided in the app, Class Status photos of the day; grievances routed with a deadline	Diary and notices; no stories, no grievance routing	Nothing to build; one school for a month
5. Admissions that do not leak	Every enquiry has an owner and a next call; dropped and never-followed-up lists; enquiry links a family fills in on their phone; funnel by source	Enquiries and counsellor reports	A counsellor using it for a month

What the buyer gets	How XULO delivers it	MCB	Still needs
6. Buses the school is not liable for	Live tracking, geofence alerts to parents, speeding and rash-driving alerts, driver checks, AIS-140	VTS vendor link and reports	GPS hardware at one school
7. A price that fits a budget	One published per-student figure and per-message rates; no module quotes, no branded-app surcharge; the school's brand on everything from day one	Quote only; branded app is a paid service	The owner's numbers; a public pricing page

Lead with 1 and 7 in a sales conversation: collected fees is the number a correspondent watches, and an open price removes MCB's sales call from the comparison.

3. Side by side

Area	MyClassBoard	XULO (this ERP)	Edge
Maturity	Live at many schools for years; Yajur school uses it today	Built Aug to Oct 2026; no school live yet	MCB
Scope	SIS, HR, Finance, Admissions, Transport, Certificates, Library, Organisation (8 modules in export); hostel, inventory, LMS, HR Plus sold separately	Same eight plus hostel, payroll, books, clinic, counselling, discipline, stores, canteen, LMS, stories, statutory, seller console, in one product	XULO
Roles	Admin, branch staff, teacher, parent, student; menus per user type	20 named roles each with its own home (principal, HOD, exam controller, warden, nurse, driver, trustee, IT admin, seller)	XULO
Finance reports	About 150 fixed reports (collection, audit, due, log, Tally)	Dashboard, day sheet, dues, ledger, GST receipts, books and tax reports, Custom Report Builder; fewer fixed reports	MCB
Fee counter and receipts	Invoice/challan, receipts, online payments, credit-note wallet	Take fee payment, A4 receipt in owner's design, wallets, online portal, fees post to books automatically	Even
Payroll and accounts	HR Plus (separate module); Tally export	Monthly payroll, PF/EPS groups, payslips, taxation filing, chart of accounts, daybook, cashbook, Tally connector	XULO
Admissions CRM	Enquiries, counsellors, LeadSquared, many dashboards and reports	Enquiries, lead assignment, follow-up calls, enquiry links, form builder, RTE quota, waitlist, chatbot and voice agent (planned), fewer dashboards	Even
Transport	Routes, trips, VTS vendor URL, zones, address map, 13 reports	Vehicles, routes and stops, allocation, scans, live tracking, geofence alerts, fuel and maintenance, AIS-140; parent bus tracking with radius	Even
Attendance	Daily, biometric, RFID, period-wise, FR attendance	Class, whole-school, correction, absentee follow-up, biometric sync, offline capture, parent leave shows in the register	Even
Exams	Marks, report cards (menus not in this export)	Exams and papers, hall tickets and seating, question paper approval, mark moderation, CCE, question bank, AI paper generator (planned)	XULO
Parent and student app	Smart School app, diary, PTM booking, homework, fees	Parent and student portals built phone-first; native Android and iOS shells; Class Status stories; homework diary; My planner	XULO
Messaging	SMS 0.1888 per SMS, WhatsApp 0.85 incl. GST, voice 0.708 per credit; plans bought in the login	Channel ladder (in-app, push, WhatsApp, SMS), delivery receipts, quiet hours, digest; credits sold by the seller; no public rate yet	MCB (published), XULO (design)
Certificates and ID	Designers for ID, TC, bonafide, achievement; bulk APAAR cards	Certificates and transfers, ID card printing, numbering and templates, APAAR provisioning, DigiLocker (catalogued)	Even
Library	Settings, barcodes, Lexile reader assessment, 9 reports	Catalogue, accession, barcodes, issue and return, reservations, fines, OPAC, stock verification; no Lexile	MCB (reading levels), XULO (ops)
Support	Tickets, self help, trainings, help videos, school contacts	Help Centre, troubleshooters, Quick Assist screen share, known issues, seller support team with SLA	Even
Multi-school	Branches and zones, switch branch	Seller console: schools, plans, entitlements, usage, instance health; white label per school	XULO
UI	Classic web menus	Shared component kit, 40/44 px controls, dark mode, motion kit, bento home, works at 360 px	XULO
Price	Core ERP 300 to 500 per student per year (older interview, not confirmed); module prices by quote	Set by the seller in Plans and Pricing; Cloudflare stack keeps hosting cost low; nothing published	Unknown

4. Coverage of the MCB catalogue by module

MCB module	Screens	Has (Y)	Partly (P)	Lacks (N)	Where it lives in XULO
SIS	45	40	2	3	Student 360, Groups & lists, Class Setup, Attendance Audit, Audit log, Reports
HR	58	56	0	2	Staff 360, Staff register, Biometric Readers, Leave rules, Staff analytics & reports
Finance	112	109	0	3	Fee Dashboard, Take fee payment, Unpaid fees & reminders, Student wallets, Match bank records, Accounting & tax reports, Custom Report Builder
Admissions	56	48	1	7	Enquiries, Assign Leads, Follow-up Calls, Application Forms, Admission reports, Dropped leads
Transport	35	30	4	1	Vehicles, Routes & stops, Student allocation, Route attendance, Live vehicle tracking, Fuel & maintenance log
Certificates	23	23	0	0	Certificates & transfers, My ID card, ID card printing, Numbering & templates, APAAR ID
Library	24	23	1	0	Books & copies, Accession register, Issue & return, Reservations, Fines, OPAC search
Organisation	49	39	4	6	Seller console, School settings, Roles & permissions, Logins & access, Help Centre, All features search, Message Credits
Total	402	368	12	22	

Y: a screen or report in XULO does the same job. P: the data and a general tool exist (Reports, Custom Report Builder, Audit log) but there is no dedicated screen. N: nothing in XULO does it.

5. Gaps in XULO, by importance

Gap	Why it matters	Status
Fixed finance reports (cheque deposit dashboard, bank submission form, outstanding as at month, fee plan details, consolidated month-wise, ECS and parent bank details, card swipe charges)	Accountants ask for these by name at audit time	Built 7 Oct 2026: Fixed reports, seven tabs
Thirty-one more MCB reports (siblings, segments, shuffled, strength audit, suspensions, staff kids, outsourced staff, deposits register, exam fees, scholarships, mismatches, duplicate enquiries, sources, referrals, target strength, menus by role, and the rest)	The sheets MCB lists one by one	Built 8 Oct 2026 as exports under Reports > Data exports, CSV, TSV and Excel
Payment corrections: void, move to another child, force a confirmed online payment, end a fee for a class	The approvals MCB keeps under Finance	Built 8 Oct 2026: Fee corrections
Staff task manager (5 MCB screens)	Office work assignment and follow-up	Built 7 Oct 2026: Staff tasks, My tasks, per-person report
Student contracts and fee discount documents	Paper trail for negotiated fees	Built 7 Oct 2026: a file and a note on each concession
Library reader assessment (Lexile)	Primary schools grade reading levels	Built 7 and 8 Oct 2026: Reading levels, with an expected band per class and a below-band mark
Work from home, compensatory off, permission requests, reporting managers, leave application windows	HR edge cases MCB handles	Built 7 and 8 Oct 2026: on Leave, Staff register, Staff tasks and Leave rules
Staff handbook and policies	Policy acknowledgement at joining and each year	Built 8 Oct 2026: Staff handbook (HR) and My handbook (each member of staff), with who has signed
Certificates: promotion, achievement, study; bulk TC; ID card barcode	Year-end and sports-day paperwork	Built 8 Oct 2026: three more kinds, a whole section at once, Code 128 on staff and student cards
Transport zones and the daily sheet	Zone-wise students, the day's runs, the fleet's papers	Built 8 Oct 2026: a zone on each stop, three transport exports; the map now always draws (OpenFreeMap when the school's own tiles are not served); student addresses are not geocoded, so no address map

Gap	Why it matters	Status
Staff attendance regularisation	A forgotten punch costs a day's pay	Built 8 Oct 2026: staff ask on My leave, HR approves on the Staff register and the mark is written
Move from MyClassBoard	A school switches only if it loses nothing	Built 8 Oct 2026: Getting started > Move from MyClassBoard, five files in order with MCB's own column names mapped, a dry run that names every row, then the import
Rules the school sets once	Fee reminders, the evening digest, quiet hours	Built 8 Oct 2026: Getting started > Rules, each rule as a sentence with a switch and its one setting
Returns readiness	UDISE+, APAAR, RTE and the training return found wanting in the month they are due	Built 8 Oct 2026: Reports > Returns readiness counts what is missing today and names the screen it is filled on
MPIN, hardware scan, switch zone, monthly deck, walk-in survey, merit upload, BDM and agent reports, GPS self check-in, nearest locality	MCB-specific; low priority	Left out on purpose

6. MCB price list (7 Oct 2026, from the Yajur login)

Item	Rate (INR)	Note
SMS	0.1888 per SMS up to 60,000; 0.177 from 100,000	Packs from 2,000 (377.60) to 10,00,000 (1,77,000)
Voice call credits	0.708 per credit incl. GST	Packs 1,000 to 1,00,000; website says 0.75 per 60 seconds
WhatsApp credits	0.8496 per message incl. 18 percent GST (0.72 before GST)	Packs 1,000 to 1,00,000
SyncUp online classes	1,000 to 3,000 per month	5 to 20 parallel classes
Online counselling (Admission Plus)	1 per minute	
Core ERP	300 to 500 per student per year	Older interview figure; not confirmed current
Editions and modules (HR Plus, Admission Plus, Hostel, Inventory)	Not published	Quote only; see Organisation > Invoices in the login

XULO has no published price. The seller console carries Plans and Pricing and Message Credits, so the same per-message model can be offered; the numbers are the owner's decision.

Appendix: every MCB screen and its XULO equivalent

Y = has, P = partly, N = lacks. The last column names the XULO screen or tool that covers it.
